## Title

Microinvertebrate Bioassessment of Stamford's Rippowam River  
Charicterization and Identification of Long Island Sound Harbor Seals by Microsatellite Amplification  
The Effects of Ultraviolet Irradiation on the Lytic Capabilities of Bacteriophages  
The Effects of Vitamin C on Insulin Secretion  
Effects of Long Island Sound Water Quality on the Ribbed Marsh Mussel *Geukensia demissa*  
Effects of a Home Heating Oil Spill on the Local Environment  
The Optimization Of Dipyrromethane Synthesis  
Reducing Fe(III) Using Geobacter  
Comparing Alternate Power Sources on Overall Efficiency  
Impact of Chitin Bioremediation on Wastewater and Heavy Metal contaminated soil  
Assessment of Long Island Sound Through Physiology of the Mummichog Fish  
Post Traumatic Stress Disorder  
Charicterization and Identification of Long Island Sound Harbor Seals by Microsatellite Amplification  
Biodiesel Emissions  
The Effect of Mud Snails (*Ilyanassa obsoleta*) on the Water Quality of Their Environment  
Extraction of Curcumin from Turmeric Efficiently  
Effects of Muscle Manipulation On a Drummer's Overall Performance  
The Effects of Water Effluent on Long Island Soung Grass Shrimp  
The Effect of Room Acoustics on the Generated Sounds of Percussion  
A Comparison of Alternative Power Sources  
Effects of Spiritual Healing on the Growth of Plants and Bacteria  
The Progression of Peanut Allergies Determined through the Perceptions of Medical Professionals  
The Effect of a Solute Density Gradient on the Path of a Laser Beam  
The Effects of Core-Strengthening on Competitive Swimming Performmce  
The Long Term Effect of Oil Spills on a Class 1 Trout Streams Ecosystem  
How is West Nile Vims Effecting the United States?  
Robotic Modes of Transportation  
The Effects of Sample Site Characteristics on Well Water in Stamford  
The Reappearance of Bioluminescence in Regenerating Brittle Star Limbs  
The Effect of Water Depth, Wind Speed and Water Temperature on Hurricane Storm Surge Foundation  
Analyzing Abnormal Object Recall in Formal Thought Disorder in Schizophrenia Through the Use of Functional Mag  
The Study of the Growth of Escherichia Coli Under Simulated Martian Conditions  
Maximizing Imaging for Photo Damaged Skin Studies Through Analyzing Lighting Variations on Pixel Value Deviatric  
Studies in Sleep: How, Why, What Happens, and Previous Research  
The Effects of Spectral Energy Interacting With Gravity as Shown Through Jupiter and its Moon Io  
Impact of Diphenylamine Pesticide on Supermarket Apples and the Environment  
Neural Network Learning  
The Study of the Effects of the West Nile Pesticide on Crustaceans in the Long Island Sound  
A Study of the Effects of a Sustained Hypoxic Environment on the Reproductive Efficiency of the Calanoid Copepod  
Classification and Identification of Sea Scallops From Commercial Retailers  
DNA Forensic Study of Tissues Subjected to Different Environmental Conditions  
The Effects of Creatine on the Enzyme Phosphofructokinase and its Production of ATP  
Comparing Salt Marshes on the Long Island Sound using Health Indices in *Fundulus heteroclitus*  
Charicterization and Identification of Long Island Sound Harbor Seals by Microsatellite Amplification  
A Novel Method of Sterilization by Low Temperature Plasma  
Analysis of Genetically Modified Soy Available from Commercial Retailers

Taste Bud Analysis

Trophic Level Heavy Metal Bioaccumulation in Long Island Sound's Great Meadow Marsh

## Subject

agnetic Resonance Imaging
